7. Outdoor Plan Update

- Facilities Manager - site inspection, suggested ideas,
- get rid of gravel - they will remove for free if another school is needing gravel
- structures without moving parts is ideal - less maintenance/repair
- swings are inexpensive and affordable to maintain (gravel would be okay for swings)
- start with a few pieces and then add on (swings, beams)
- permanent soccer nets for the primaries? Tetherball posts just need ball/strings?
- some schools have a mound of dirt they plant grass on to have for kids to run on/roll on/slide on
- notify parent population that we welcome suggestions/feedback; invite them to an SCC meeting
- ask for student input
