## School Report

Assessments of Reading, Writing and Mathematics
Primary Division (Grades 1-3) and Junior Division (Grades 4-6), 2018-2019

## School: Dr Emily Stowe E S (136891) <br> Board: Kawartha Pine Ridge DSB (66079)

On behalf of EQAO, I am pleased to share the results of the 20182019 Assessments of Reading, Writing and Mathematics for the primary (Grades 1-3) and junior (Grades 4-6) divisions. You will also find data from previous years along with demographic and attitudinal information as context for interpreting the achievement results.
EQAO's independent data are grounded in our assessment of every student in relation to Ontario Curriculum learning expectations and are provided at the school, board, provincial and individual student levels to inform educators' professional practice. We believe that, through evidence-informed decisions based on achievement, attitudinal, contextual and behavioural data, it is possible to foster equitable and inclusive learning models benefiting each student.

Analyzing EQAO data over the years provides a larger context that acknowledges special circumstances affecting student achievement. For example, school boards have been investigating the impact student attendance and loss of instructional time has on student achievement; when looking at the most recent data, you may wish to identify any potential relationship between lost time and student achievement.

In August 2018, educators received Focusing on the Fundamentals of Math: A Teacher's Guide. Based on that guide's expectations, EQAO analyzed how students have performed for the last three years and published findings in a research report. You may likewise wish to consider how students are performing relative to the categories of the achievement chart and the identified fundamental math skills.

In 2018, EQAO made changes to its accommodation policies, including eliminating the requirement for an IEP to access accommodations students normally receive during regular classroom instruction. An important reason for this change was to reduce the workload related to EQAO assessments for teachers, administrators, and parents and guardians while maintaining the integrity and comparability of our data. After considering all of our assessment administration, we noted that 13000 fewer IEPs were indicated in our Student Data Collection in 2018 than in 2017. The agency hopes to continue implementing meaningful changes in the years to come to address the concerns of the education community.

As always, we look forward to continuing our work with you in support of student learning, and we thank you for your dedication to the meaningful education of each child and youth of this province.

Kind Regards,

Norah Marsh
Chief Executive Officer
Education Quality and Accountability Office

## TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

$$
\cos
$$

Every assessment captures the performance of students at one point in time each year.
Consider the results along with other information about students' achievement in reading, writing and mathematics.

08
Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of $10 \%$ represents only two students.

## OS

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.
cos
EQAO values students' privacy. Results are not reported publicly for schools or boards where fewer than 10 students participated because it might be possible to identify individual students.

## ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on The Ontario Curriculum.

## This report includes

- results for this year;
- a comparison of results of the current and previous administrations to aid in monitoring improvement;
- information about the characteristics of the students who participated;
- summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics;
- detailed tables and graphs showing results for all levels of achievement, results by gender and participation information;
- student questionnaire results; and
- an explanation of all terms used in this report.

## HOW TO USE THIS REPORT

- Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- Examine the results for reading, writing and mathematics.
- Are these results consistent with what you would expect?
- How do the school results compare to the board and the province; the board results compare to the province?
- How do these results compare over time?
- What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- Speak to school or board staff about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

* Includes only students for whom gender data were available.
$\dagger$ Percentages may not add up to 100, due to rounding or to missing responses.

| EXPLANATION OF TERMS |  |
| :---: | :---: |
| All Students | Results are reported for all students in the grade. |
| Participating Students | Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories). |
| Provincial Standard | The Ministry of Education has set Level 3 as the provincial standard. |
| Level 4 | The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard. |
| Level 3 | The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard. |
| Level 2 | The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard. |
| Level 1 | The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard. |
| NE1 | "Not enough evidence for Level 1 " is used when students did not demonstrate enough evidence of knowledge and understanding to be assigned Level 1. |
| No Data | Students who did not have a result due to absence or other reasons. |
| Exempt | Students who were formally exempted from participation in one or more components of the assessment. |
| English Language Learners | Students who have been identified by the school in accordance with English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12 (2007). |
| Students with Special Education Needs (excluding gifted) | Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students whose sole exceptionality is giftedness are not included. |
| N/R | "Not reported" indicates that the number of students participating (fewer than 10 in a group) or responding to the Student Questionnaire (fewer than six in a group) is so small that identification of individual student results might be possible; therefore, results are not reported. |
| N/D | "No data available" is used to indicate that there were no students in the grade or subject for the group or year specified. |
| W | Results are being withheld by EQAO. For further information, please contact the school principal. |
| EC | Due to exceptional circumstances in 2015, provincial data are unavailable to report provincial results. |
| NP | "Non-participating" indicates that due to exceptional circumstances, some or all of the school's or board's students did not participate. |

[^0]:    * Contextual data pertaining to gender, student status, place of birth, language learned at home and year entered school are based on information provided by schools and/or boards through the Student Data Collection process.
    $\dagger$ Some French Immersion students do not write all components of the assessment in Grade 3.
    ** See the Explanation of Terms.

[^1]:    * Percentages may not add up to 100, due to rounding or to missing responses. Where there is no number in a bar, the percentage of responses is smaller than four.
